

Introducing A NEW Thickener Experience

Swalloweze Clear offers your dysphagia patients the chance to benefit from transparent, tasteless, and lump-free fluid and food thickening, allowing safe swallowing and improved hydration through encouraging fluid intake.

An **instant, tasteless, transparent** fluid & food thickener

Swalloweze Clear is a gum-based instant food and fluid thickener that **retains the natural texture, taste and appearance of fluids** whilst offering **stable and consistent thickness over time**.

For *Clinicians & Healthcare Providers*

- ✔ Maintains level of thickness once solubilised
- ✔ Rapid solubility and ease of use, saving time
- ✔ No special preparation of fluids required before adding thickener

For the *Dysphagia Patient*

- ✔ Can improve hydration by encouraging fluid intake
- ✔ Lump free, transparent, flavourless and odourless
- ✔ Suitable for all types of fluids, hot and cold

Thickening Guidelines (200ml Fluid)

(for best results, use a shaker unless the fluid is hot or carbonated)

1. Add the recommended scoops of Swalloweze Clear to a shaker, glass or beaker
2. Add 200ml of fluid
3. Shake / stir vigorously for 20 seconds until powder is completely dissolved
4. Allow to stand for 3 minutes. Thicker fluids such as juice or fluids containing milk may take up to 10 minutes to reach desired consistency.

Level	1	2	3	4
	<i>Slightly Thick</i>	<i>Mildly Thick</i>	<i>Moderately Thick</i>	<i>Extremely Thick</i>
Water/Cordial	1 scoop	2 scoops	3 scoops	7 scoops
Fruit Juice	1 scoop	2 scoops	3 scoops	7 scoops
Tea/Coffee	1 scoop	2 scoops	3 scoops	7 scoops
Milk	1 scoop	2 scoops	3 scoops	7 scoops
